EZ Access Control Cable™ has been designed for easy installation on a single pull and to meet the requirements of the most demanding Building Access & Control Systems. This composite cable includes four components required for card readers, door contacts, locking power and retinal scanners in commercial buildings, distribution centers, manufacturing facilities, government buildings and educational campuses.

EZ Access™ cables are installer friendly allowing for easy installation. With multiple cables under one jacket, time and money is saved during setup, pulling and termination.

EZ Access™ cables also include an easy-to-read print legend and color stripe to allow for quick identification of each cable’s application. Time is precious and the convenience of the cables at installation makes EZ Access™ the choice for multiple access control applications.
