March 22, 2021

Dear Valued Customer:

We have reviewed the materials used to produce products at Advanced Digital Cable and found they do not contain any of the substances shown in the complete EPA list of Persistent, Bioaccumulative, and Toxic (PBT) Chemicals under Toxic Substances Control Act (TSCA) Section 6(h). (The substances of concern listed in the TSC Act are: Hexachlorobutadiene (HCBD), Decabromodiphenyl ether (DecaBDE), Phenol, isopropylated phosphate (3:1), 2,4,6-Tris(tert-butyl)phenol (2,4,6-TTBP), and Pentachlorothiophenol (PCTP).)

As required under the (TSCA), and as amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act, the EPA issued five final rules on January 6, 2021 designed to reduce exposures to certain chemicals that are persistent, bioaccumulative and / or toxic (PBT).

In March 2021, EPA announced a 60-day public comment period to collect additional input on these final rules. Additionally, EPA issued a temporary 180-day "No Action Assurance" indicating that the agency will exercise its enforcement discretion regarding the prohibitions on processing and distribution of PIP (3:1) for use in articles, and the articles to which PIP (3:1) has been added in order to ensure that the supply chain of these important articles is not interrupted while EPA continues to collect the information needed to best inform subsequent regulatory efforts and allow for the issuance of a final agency action to extend the March 8, 2021, compliance date as necessary.

As of the date of this letter, Advanced Digital Cable, Inc. has performed its due diligence in order to ensure that our products fully comply with, the TSC Act.

Sincerely:

Steve Tant
Quality/Loss Prevention Manager
